Our Rap therapy session was a great success – the children loved the facilitator and the whole session was really fun and engaging. It was particularly successful because the children could express themselves without limitations; the style and approach within the session gave them the opportunity and the freedom to be as creative as they wanted.

The children really enjoyed working together as a team and sharing their ideas it developed the skills of collaboration. The children reported that they really enjoyed using different rap schemes to make up their own raps.

They liked being able to present their raps to one another and celebrate each other achievements within the session.

It was an excellent way to build their confidence.

Charlotte Purcell  
Head of School
