November 2022

## **Rap Therapy Reference**

On Thursday 10th November 2022, Rap Therapy hosted a 1 hour rap workshop with 30 Year 8 students. The workshop consisted of an introduction to the world of rap, an engaging, collaborative activity exploring rhyming words and a final task of writing and performing a rap.

The students thoroughly enjoyed the workshop and demonstrated enthusiasm and commitment to the tasks. This was a direct result of the presenter's passion and rapport with the students, ensuring that all members of the class could contribute and felt empowered to express their ideas. The tasks were appropriately pitched and had links to the curriculum, making the workshop informative and relevant to students. The presenter was confident in handling classroom behaviour and was polite and punctual.

I recommend Rap Therapy for their engaging work and for inspiring students.

Yours sincerely,

Ms P Obhrai  
Teacher of English
